MSc

Finance

The MSc in Finance is an innovative programme aimed at graduates who are considering developing a career within the financial services sector, at either the corporate level or financial markets. The MSc in Finance is taught by world-renowned academics and has proven to be highly successful, enjoying an excellent reputation amongst employers, with alumni who have distinguished themselves in Portugal and abroad, in leading financial institutions and consultancy firms.

MSc Finance

The MSc in Finance builds on a solid and rigorous theoretical foundation and we expect students to develop a clear understanding of foundational and advanced elements of finance decisions, namely financial statement analysis, principles of finance, corporate finance, valuation, fixed income, portfolio management and risk management. Furthermore, throughout the programme you will develop quantitative, analytical and problem-solving skills by focusing on advanced financial decisions from the perspective of both organisations and market agents.
